WILDING WALLBED OPTIONS

SIDE MOUNT WALLBED LIGHTING SYSTEM

The Wallbed light kit includes two recessed Can lights, touch switch, three way controller and safety cut off device. System plugs into any standard wall outlet. Adding the lights will add 4" to the height measurement of the Wallbed you choose.

The touch switch is conveniently located on the head board and activates the lights by touch to a low, medium or high setting. The light kit employs a safety cut off device, which turns the lights off automatically if the bed is closed with the lights inadvertently left on. All power cords are concealed within the cabinetry so there are no unsightly cords.

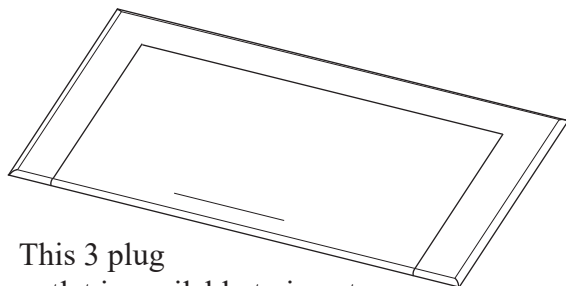

Lights available in Brass, Black or Chrome.

Wallbed Lights
